DETAILED ACTION

This action is in response to Amendment after non-final rejection filed September 2, 2005. Claim 1 has been amended as requested by the applicant.

Response to Arguments

Applicant's arguments, see Amendment, filed September 2, 2005, with respect to claim 1 have been fully considered and are persuasive. The rejection of claim 1 has been withdrawn. Applicant amended the claimed limitations to require that the optical repeat unit have six layers in the claimed sequence. The applicant argued that the prior art failed to teach or suggest the newly amended claim limitations.

Allowable Subject Matter

Claims 1-13 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the prior art of record fails to teach or suggest a multilayer reflective film comprising a plurality of six layer optical repeat units comprising materials A, B, C and D arranged in a sequence CACDBD where layers A and B are optically thicker than C and D and where $n_A \geq n_D > n_C > n_B$ or $n_A > n_D > n_C \geq n_B$.

The remaining claims depend from claim 1 and are allowable for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Joshua L. Pritchett whose telephone number is 571-272-2318.
